PROJECTS

Petlove

Next.js, React, Redux Toolkit, React Hook Form, Yup, Axios, Sonner, Cookies

[Live Demo](#) | [GitHub](#)

- Architected a scalable web app using Next.js App Router and Feature-Driven Architecture for high code isolation and maintainability.
- Achieved top-tier SEO and Accessibility (A11y) using semantic HTML5, screen-reader attributes and full keyboard navigation.
- Optimized data-fetching performance using React Server Components (RSC) for public pages (News) combined with Redux Toolkit for interactive client states.

Psychologist App

React, React Router, TanStack Query, Firebase

[Live Demo](#) | [GitHub](#)

- Engineered efficient server-state management using TanStack Query to optimize data fetching and caching.
- Developed dynamic data management features, including multi-criteria sorting, filtering, and pagination.
- Integrated client-side state features, enabling users to add or remove items from a favorites list via localStorage.
- Implemented user authentication and a dynamic light/dark theme switcher for enhanced UX.

Google Forms Lite Clone

React, React Router, Tailwind CSS, TanStack Query, Express, Prisma

[Live Demo](#) | [GitHub](#)

- Developed a dynamic, interactive form builder and a live form filler featuring instant response review capabilities.
- Structured the project as a monorepo utilizing npm/pnpm workspaces for clean code architecture and package management.
- Designed and integrated a relational database schema using PostgreSQL, hosted on Neon, managed via Prisma ORM.
- Created a fully responsive, modern user interface from scratch using Tailwind CSS.
